Subject: PLEASE GET OFF MICROSOFT"S BACK!

It's utterly insane that a bunch of state governments are allowed to play politics in this economy with technology companies. Microsoft is not a monopoly, creates outstanding products that have made my life incredibly better and easier, AND WILDLY ECONOMICAL.

Technology advances must be made for our economy to grow. We need to leave Microsoft alone and let them compete in the marketplace as they have in the past. The best company that offers the best service will win, but with so many needs that have to be met, it's unlikely that one company will ever be able to be all things to all consumers.

Stop trying to regulate this industry by penalizing Microsoft. Let the marketplace drive demand, service, and quality.

Thank you,

Sandra Alto
